PROFILE

Seeking a beginner role to enhance and explore my technical knowledge gained in the last three years. **Also,** Proficient in talent acquisition. Ability to negotiate terms effectively with excellent communication skills

MY PROJECTS

Library Management System
HTML, CSS, JS (for front-end), php, Localhost server (for back-end)
- Provides the searching facilities based on various factors.
- It tracks, add, update and delete all the information of Student, Member, Books etc.
- Manage the information of Student
- To increase efficiency of managing the Address, Student

Dental Clinic Website
HTML, CSS, JS (for front-end), php, MySQL Database (for back-end)
- The main purpose for developing this Dental Clinic Management System project php is to book appointment.
- This system is very useful for Dental Clinic. There is single user admin in this project who can manage patient, treatment, timeslot, doctor schedule, appointment.

Stock Management System
VB.NET, MS Excel (for database)
- this is simple stock managemet system it save or calculate the detail's of product we
- create it with the help visual studio and MS Excel

Hands Free Mouse
Python, (tkinter, turtle, cv2, mediapipe, pyautogui)
- Using our both eyes we can do whatever we want like mouse.

Track Mobile No. with Location
Python, (Nominatim, pytz, TimezoneFinder, folium, webbrowser, phonenumbers, result, operator, search, datetime)
- It find all detail of SIM card using number without sending any OTP.
- It can also track location

Private Browser
Python, (PyQt5.QtWebEngineWidgets, PyQt5.QtWidgets, PyQt5.QtCore, sys)
- It is aa private browser like other browser like: chrome, edge, firefox etc.

Snake, Water & Gun Game
Python, (Random)
- It is like a normal hand Snake, Water & Gun game but it played on computer.
- It has two mode :-
1.   Player v/s   Player
2. Player v/s   Computer

Portfolio Website
HTML, CSS, JS, (host on github)
- I also create my own portfolio website fully responsive for all devices.
- link to the website is :-   https://17sunny.github.io
